Armenian(Native)
Russian(Fluent)
English(Elementary)

About Me

I am Hasmik Hunanyan, a Front-End Developer and Trainer with experience in applying and teaching modern web technologies. I specialize in building interactive, user-centered web solutions while simultaneously sharing my knowledge with students and junior professionals. I value clean and well-structured code, continuous professional growth, and effective teamwork.

Education

- 42 Yerevan International Scholl 2025-Present
- Student, 42 International School, Yerevan Campus
Receiving in-depth technical education in algorithms, programming, and computer science through self-directed learning and project-based methodologies.

Experience

- Front-End Developer Sep2023-Dec2023
- Designed and developed a responsive, visually engaging fashion journal website from scratch, leveraging modern front-end technologies (ReactJS, CSS3 Grid/Flexbox).
- Created interactive UI components (e.g., image galleries, filters, animated transitions) to enhance user experience.
- Translated Figma mockups into functional, pixel-perfect web pages with a focus on typography, spacing, and brand consistency

Tutor-Free Programming Project

- Front-End Development (HTML5, CSS3, JavaScript) Dec2023-Jul2024
- Delivered structured and engaging lessons focused on both theory and hands-on practice
- Designed real-world projects and coding exercises to strengthen practical skills
- Mentored students in debugging, code optimization, and industry best practices
- Supported learners in building a solid foundation in front-end development

Soft Skills

Time Management, Communication Skills, Problem Solving, Adaptability & Continuous Learning, Presentation skills, Hard working, Networking, TeamWorking Participation in Community & Events Creativity & Innovation,

Certifications and Courses

Received a certificate from Samvel Hayrapetyan(Sami) for active participation, engagement, and contribution to the Free Programming Project.

Web Development (HTML5, CSS3, JavaScript) – Mid-Level Programming Course
Microsoft Innovation Center Armenia
